

## Get Involved - Individuals, Groups or Corporations

United Way creates opportunities for our youth to have bright futures and for caring volunteers to make a difference in our communities. We are fixing problems by providing resources to local K-12 students from low-income households. **By partnering with us, your support will not only provide school supplies, but will also promote learning, self-esteem, and ensure that our youth stay in school.**

### Bringing Stuff the Bus to you!

Our Stuff the Bus drive is now an opportunity that can be brought directly to you! Members of your group will be involved from the process of purchasing items to stuffing backpacks. Stuffed backpacks become part of our Stuff the Bus campaign and will be given to partnering non-profit agencies that distribute them to students in need.

### Why is Stuff the Bus important?

- 16% of youth in Ventura County live in poverty
- An average of 44% of students in Ventura County qualify for free or reduced lunch
- The average cost of living has risen in Ventura County, making it difficult for many families to provide school supplies
